

Gateway Concept

The intelligent transport solution

Rapid consolidated containers

A new approach to general cargo: we can now ship your LCL cargo from Asia to Europe using the Gateway Freight system. What does that mean? We load consolidated containers according to their destination region prior to departure from Asia. This saves additional handling and repacking products at the port of arrival. Containers are simply forwarded directly to Logwin's regional distribution centres and the goods are distributed to their recipients from there. The process is faster, provides better security and saves costs.

Up and away

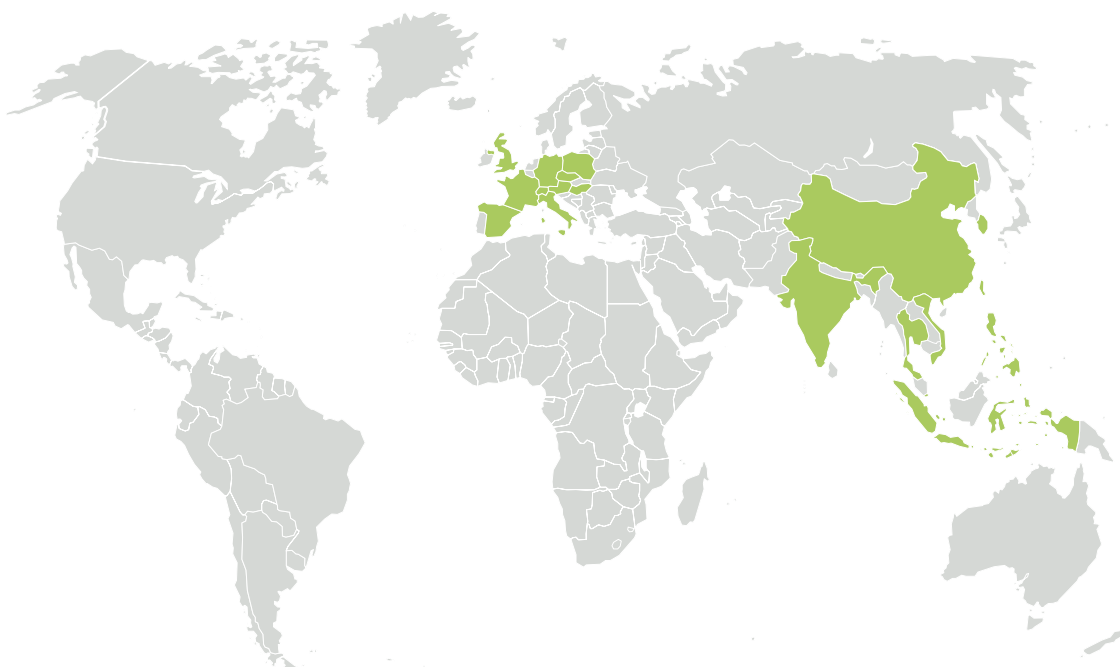

To ensure the best possible connection to your destination in Europe, we consolidate consignments from various departure points in Asia. Whether it's Hong Kong, Shanghai or Singapore, we connect all the major Asian trading centres with Europe's largest ports on a weekly basis. Consolidated containers arrive at our distribution centres via Antwerp, Hamburg and Rotterdam. Through Logwin's own terminals in Europe we manage the delivery of your goods to every corner of the continent within 24 hours.

The competitive edge

The Gateway Freight system reduces the transport cost of each consignment. You benefit from shorter transit times, minimal risk of damage and transparent freight costs.

Our expert staff in every location provide a professional freight handling service. Your usual contact person is available to assist with any queries or requests regarding any aspect of the freight handling process. Our sophisticated IT systems allow you to check on delivery status in real time.

Our Gateway locations in Asia:

- China (Guangzhou, Hong Kong, Ningbo, Shanghai, Shenzhen, Xiamen)
- India (Mumbai)
- Indonesia (Jakarta)
- Philippines (Manila)
- Singapore (Singapore)
- South Korea (Pusan)
- Taiwan (Kaohsiung, Keelung)
- Thailand (Bangkok)
- Vietnam (Haiphong, Ho Chi Minh City)

Logwin terminals in Europe:

- Austria (Linz, Salzburg, Vienna)
- Czech Republic (Prague)
- France (Paris)
- Germany (Aschaffenburg, Berlin, Mönchengladbach, Nuremberg, Stuttgart)
- Hungary (Budapest)
- Italy (Milan)
- Poland (Warsaw)
- Spain (Madrid)
- Switzerland (Basel)
- United Kingdom (London)

Our Gateway system provides:

- Weekly consolidated LCL shipments from all major ports in Asia
- Deployment of first-class carriers
- Distribution all over Europe via our regional terminals
- Central coordination and management of all sea freight imports

Gateway's benefits for you:

- Shorter transit times
- Transparent freight costs
- Minimised risk of damage
- Professional door-to-door service
- High level of transparency throughout the process with our innovative tracking tool
