

# Pan-Asia

Logistics from China to New Zealand

## A market with potential

Close to half of all global shipping traffic is between countries in Asia. The countries of South and South-East Asia have outgrown their role as the „workbench of the West“ quite some time ago. Together with Australia and New Zealand they form an own vast domestic market which presents almost limitless opportunities for business, even for companies from outside the region.

### Your regional specialist

While the Pan-Asian region constitutes uncharted territory for many business enterprises, we have had a presence there for over 35 years. In pursuing our business we combine international competence, unified quality standards and a worldwide network of branches with local know-how. We are well versed in and comply with the complex trade and licensing regulations, government provisions and customs laws in the countries of Asia and Oceania. Take advantage of our comprehensive knowledge of regional conditions and personal contacts in the field.

We offer a comprehensive range of services from freight management to warehousing, accompanied by a wide variety of value added services. Together, we can develop the best logistics solution for your requirements.

### Our Services

- Air freight
- Sea freight
- Distribution
- Supply chain management
- Warehousing
- Value added services
- Logistics consultancy

### **Your product solution**

From 46 ° North to 47 ° South, we are located in more than eight time zones at your disposal. Whether automotive products, consumer goods or health care – we know the specific logistic challenges facing various industries across the longitudes and latitudes of Pan-Asia. As your competent logistics partner we execute your orders in a customised manner, encompassing more than just transportation and warehousing. Customs clearing of ship parts, packaging of highly sensitive electronic devices or even quality control of essential pharmaceuticals – we provide a one-stop logistics service that extends right through the complete supply chain management.

### **Our Value Added Services**

- Product preparation
- Packaging
- Labelling in the local language
- Goods inspection and quality control
- Customs formalities
- Local billing

### **Our IT - Your goods in constant sight**

How many T-shirts are currently warehoused in Tianjin?  
Are there enough drives available in Cebu for producing  
500,000 DVD recorders for the Australian market?

With our modern, globally integrated IT system we  
can answer all your questions around the clock.  
We receive your orders online at any time. You can track  
the movement of your goods in real time by linking  
directly into our system or via the Internet.

### **Online-Tools**

- Tracking & tracing
- Online order
- Supply chain management
- Warehouse management
- Direct linkage into our system
- Digital electronic billing
