

## **Logwin opens new logistics centre in Warsaw**

**Grevenmacher (Luxembourg)** – The logistics service provider Logwin strengthened its commitment in Poland in October with a new logistics centre near Warsaw (Sokolow). From now on the company will be providing its customers with all types of logistic solutions for consumer goods, textiles and print media from a warehousing and logistics facility with 5,000 square metres of floor space. With its fourth site in the Warsaw region, Logwin is now present at 23 locations all over Poland.

### **Expanded contract logistics**

Logwin has been operating in the Polish capital for more than 15 years – since 1992 with its business segment Road + Rail and since 2005 with its business segment Air + Ocean. The business segment Solutions has had a local presence with its own site for print media logistics since 2004. Logwin will be bundling the competencies of three Solutions business units at its new logistics location: Consumer Goods, Fashion and Media. "The demand for specialised logistics services and for efficient consumer goods logistics is growing in Poland", says Piotr Jewusiak, the director responsible at the new site. "Our increased commitment allows us to extend our service offering accordingly." There are now modern facilities for industry-specific logistics solutions available to Logwin customers just ten kilometres away from Warsaw Airport. The adjoining warehouse has a capacity of 5,000 square metres, and 1,500 square metres of this is dedicated to picking and transshipment. With a height of ten metres, the warehouse provides space for around 10,000 pallets.

### **Logwin in Poland**

"Warsaw has assumed a key role as a logistical crossroads in our network", explains Hermann Költringer, Director Business Development Solutions at Logwin. "This site is an important hub for us for press and consumer goods logistics in Poland." Logwin is represented throughout the country and has more than 56,000 square metres of warehousing space there. Its service offering covers the whole spectrum of logistics services from contract logistics through ocean and air freight forwarding to land transportation. Moreover, Logwin can also take care of customs clearance at its own locations near the EU border with Ukraine and Belarus. Logwin offers specific expertise for different products and industries such as chemical goods and for the automotive industry. As a founding member of the leading Polish groupage freight network PSD (Polski System Dystrybucji) Logwin can distribute freight shipments – including hazardous goods consignments – throughout Poland within 24 to 48 hours.

**About Logwin AG**

As an external partner, Logwin AG, Grevenmacher (Luxembourg), develops a comprehensive range of logistics and service solutions for trade and industry. In 2007, the group generated sales of 2.0 billion euros and currently employs approximately 8,700 staff in 44 countries. Logwin operates in all main markets worldwide and has over 400 locations across all continents. With its three business segments Solutions (customer-oriented contract logistics), Air + Ocean (global air and ocean freight forwarding activities) and Road + Rail (land and special transportation activities in Central, Western and Eastern Europe) Logwin is one of the market leaders.

The business segment Solutions stands for contract logistics within Logwin AG. Solutions offers individual customer- and industry-oriented solutions ranging from supply chain management and warehousing through logistical value-added services through to complete outsourcing projects. The business segment has a high level of competence in process management and the development of bespoke IT solutions. The close network with the business segments Air + Ocean and Road + Rail enable multi-modal transport solutions to be realised quickly and efficiently.

Logwin AG is listed in the Prime Standard of the Deutsche Börse. The majority shareholder is DELTON AG, Bad Homburg.
