

Logwin expands logistics centre in Hong Kong

Grevenmacher (Luxembourg) – With the expansion of its logistics centre in Hong Kong, the worldwide logistics services provider Logwin has considerably enhanced its warehouse capacities in China. The Kwai Chung location now has available about 4,000 high-rise rack pallet spaces with a total area of approximately 6,600 square meters. The original storage capacity was 1,500 square meters.

Logwin started running the warehouse in October 2008 and modernized it in two expansion phases. In doing so especially the storage capacity for temperature-sensitive products was increased. “We continue to be satisfied with the business development in Hong Kong,” says Helmut Kaspers, COO of the business segment Air + Ocean of Logwin AG. “The demand for dependable logistics solutions has remained constant, especially in the textile and electronics industry, as well as in the area of medicinal products.”

The logistics centre in Kwai Chung is strategically conveniently located: Just a ten-minute drive from the container terminal and 25 minutes from the airport, the terminal offers optimal connections to the international flow of goods. In close vicinity to the newly expanded centre in Hong Kong are also Logwin’s air and sea freight locations in Hong Kong. “Our customers profit from this bundling with efficient end-to-end services,” says Detlef Schmeelke, Managing Director Air + Ocean Hong Kong and South China at Logwin. Besides international air and sea freight transportation and warehousing services, Logwin’s spectrum of offerings also includes the direct delivery to retail stores. Among the value added services are also labeling and quality controls.

Logwin has been active in China for more than 35 years and operates more than 20 locations, three alone in Hong Kong.

About Logwin AG

As an external partner, Logwin AG, Grevenmacher (Luxembourg), develops a comprehensive range of logistics and service solutions for trade and industry. In 2008, the group generated sales of 2.0 billion euros and currently employs approximately 8,100 staff in 45 countries. Logwin operates in all main markets worldwide and has over 400 locations across all continents. With its three business segments Solutions (customer-oriented contract logistics), Air + Ocean (global air and ocean freight forwarding activities) and Road + Rail (land and special transportation activities in Central, Western and Eastern Europe), Logwin is one of the market leaders.

The Logwin business segment Air + Ocean is represented at over 200 locations, of which 98 are wholly-owned, on all five continents. Around 1,900 employees provide air and sea freight transport as well as specially tailored and complex logistics solutions. The focus of their international engagement is in Europe, Asia, Australia, South America and South Africa. The global network is reinforced by partnerships and cooperation agreements, which include membership of the sea freight cooperation Group 99 and the air freight cooperation FUTURE.

Logwin AG is listed in the Prime Standard of the Deutsche Börse. The majority shareholder is DELTON AG, Bad Homburg (Germany).
