

## **Logwin distributes original automotive parts in Spain**

**Grevenmacher (Luxembourg)** - So far so (very) good. The global logistics service provider Logwin has now been responsible for distributing original BMW parts on behalf of the car maker in Barcelona and the Catalonia region for a year. The quality of service and reliability has been at a high level ever since the project was launched.

Logwin takes delivery of consignments in its "Dealer Metro Distribution Center" in Barcelona and supplies BMW dealers within a radius of 130 kilometers. Direct deliveries are effected as part of a multi-same-day service, meaning that some dealers are served up to three times at specifically agreed times.

### **First automotive customer in Spain**

Logwin and BMW have been cooperating in the field of parts distribution in Germany for several years. Assuming responsibility for distribution logistics in Barcelona and Catalonia represents a significant step for Logwin, as BMW is the first automotive customer that the company has worked for in Spain. "We are delighted that we have been able to successfully transfer our tried and tested services to a new market", says Dr. Stephan Freichel, Managing Director Solutions | Sales and Logistics Engineering at Logwin. "The project started in March 2010 and has been running to plan without any hitch ever since."

### **Over 20 years of experience**

Logwin has been operating on the Iberian Peninsula for more than two decades. In Spain the company has its own locations in Madrid, Barcelona and Bilbao and focuses on providing support for well-known customers in the fashion, media and automotive sectors. The activities it provides range from freight management and warehousing to value added services.

**About Logwin AG**

As an external partner, Logwin AG, Grevenmacher (Luxembourg), develops a comprehensive range of logistics and service solutions for trade and industry. In 2010, the group generated sales of 1.4 billion euros and currently employs over 5,600 staff. Logwin operates in all main markets worldwide and has around 250 locations across all continents. With its two business segments Solutions (customer-focused contract logistics solutions) and Air + Ocean (global air and sea freight activities), Logwin AG is one of the leaders in the market.

The business segment Solutions stands for contract logistics within Logwin AG. Solutions offers individual customer- and industry-oriented solutions ranging from supply chain management, warehousing and logistical value-added services through to complete outsourcing projects. The business segment offers a high level of competence in process management and the development of customized IT solutions. The close ties between the business segments enable multi-modal transport solutions to be implemented quickly and efficiently.

Logwin AG is listed in the Prime Standard of the Deutsche Börse. The majority shareholder is DELTON AG, Bad Homburg (Germany).
