

Logwin Expands Global Footprint with Entry into the U.S. Market

With the establishment of Logwin Logistics US Inc., Logwin is strategically expanding its activities in the important U.S. market and laying the foundation for further growth, particularly in the air and ocean freight business.

Grevenmacher (Luxembourg) / Los Angeles, Chicago, Savannah (United States) – Logwin is now represented in the United States with its own air and ocean freight organization. Through the newly established Logwin Logistics US Inc., the company has taken over the activities of a long-standing cooperation partner in air and ocean freight as well as customs clearance, with operations in Los Angeles, Chicago, and Savannah. The integration of the existing organization and its experienced employees enables Logwin to further strengthen its global network, serve customer requirements more directly, and strategically leverage growth opportunities in transpacific and transatlantic trade.

Focus on quality and customer proximity in the U.S. market

Ralf Schneider, Managing Director of Logwin Logistics US Inc., welcomes the acquisition: “With our new colleagues, and together with our global Logwin network, we will make an important contribution to further enhancing the quality of our services for customers in the U.S. trade.”

With this acquisition, Logwin underscores the strategic importance of the U.S. market for the further development of its global activities. Further growth in the U.S. market is planned for the coming years.
