Sporty masterly performance – Logwin Racer take off

World's third largest team at this year's Wings for Life World Run

The month of May was all about sports for the logistics company Logwin: Whether at the Škoda Velotour, the cycling classic Eschborn-Frankfurt, the local CityLauf in Aschaffenburg or at the worldwide Wings for Life World Run charity race - the Logwin Racer took on three sporting challenges in one week. The last major highlight on the Logwin Racer schedule is the Frankfurt Marathon in October.

Grevenmacher (Luxembourg) – The sporty trio kicked off on May 1, 2023 with the Škoda Velotour as part of the Eschborn-Frankfurt cycling classic. Almost 50 Logwin Racer from all over Germany gathered for this event in Eschborn, near Frankfurt am Main. Together they competed in the different distances of the Everyman race: On three routes ranging from 40 to 92 to 102 kilometers, there was something for beginners as well as the cycling pros among the Logwin Racer. The unique backdrops from the Frankfurt skyline to the Feldberg were a welcome bonus.

From Frankfurt, they then continued on to Aschaffenburg for this year's CityLauf on May 5, 2023. The Logwin Racer have been taking part in this running event for many years. In addition to a team run over five kilometers, the CityLauf also offers two main runs over eight kilometers and is the ideal kick-off event for the running enthusiasts among the Logwin Racer.

18 motivated runners took up this challenge through Aschaffenburg's city center with the unique finish line in front of the Renaissance Johannisburg Castle in Aschaffenburg.

At the end of this extraordinary sports week, the Logwin Racer once again demonstrated team spirit and commitment at the international charity run of the Wings for Life Foundation: On May 7, 1,138 runners wearing Logwin Racer jerseys in 28 countries around the world took to the starting line at the same time for the Wings for Life World Run App Run. Together, the Logwin Racer achieved a great sporting performance with 6,273 kilometers run. Under the official motto "Run for those who can't", the foundation wants to draw attention to the issue of paraplegia - 100 percent of the starting money goes to spinal cord research. That's why the Wings for Life World Run is always a special highlight in the Logwin Racer running calendar and the participation of employees, their families, friends and customers was once again very high this year: With an impressive 1,138 runners, the Logwin Racer formed the third-largest team worldwide in the Wings for Life World Run App Run, as they did the year before.

Across all continents, the Logwin Racer demonstrated great team spirit and special commitment - whether on the track or in the team of helpers behind the scenes, whether for a good cause or as a team event with colleagues. Getting involved and doing good - that's what sets Logwin apart. Whether it's for your own team, the company or for charity campaigns around the world. Because as an international group, Logwin cares about the personal development of its own employees as well as its responsibility towards society and the environment.
